# CellWise®

## Natural, Internal Body Armor

### Working Together for Broad-Spectrum Protection\*

While antioxidants are a powerful natural force for neutralizing free radicals, their strength is multiplied when they are present in the right combination. In order to fully protect your body, you require a wide variety of antioxidants. Different types from different sources for the different parts of your body. *CellWise* brings the right combination of powerful, proven antioxidants together for a synergistic formula that can make a difference in multiple areas of your health.\*

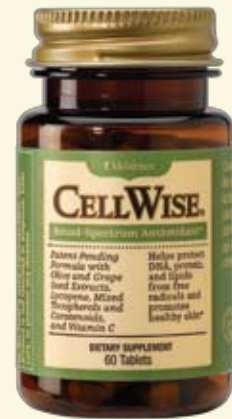

### Head-to-Toe Protection

As a broad-spectrum antioxidant, *CellWise* offers natural defense on a cellular level for all your major systems and organs, including your heart, muscles, skin, digestive system, vision, brain, and DNA.

- DNA—Vitamin C, grape seed extract, olive extract\*
- Muscle—Tocopherols, carotenoids, olive extract\*
- Skin—Olive extract, tocopherols, carotenoids\*
- Digestive System—Vitamin C, tocopherols\*
- Vision—Mixed carotenoids\*
- Brain—Vitamin C, grape seed extract\*
- Heart—Grape seed extract and lycopene\*

### Designed for Use with Oligofructose Complex®

Melaleuca's *Vitality Pack*® supplements were made to be taken in combination with *CellWise*. Because the minerals in the *Vitality Pack* are bound with *Oligofructose Complex*, antioxidants are better protected. Other multivitamin and mineral supplements don't offer that protection. Taking *CellWise* with the *Vitality Pack* helps you get more of the nutrition your body needs.

### Each two-tablet dose combats free radicals\* with a robust whole food blend of:

- 300 mg vitamin C
- 150 mg olive fruit extract
- 60 IU natural tocopherols (vitamin E)
- 40 mg mixed carotenoids
- 25 mg grape seed extract
- 3 mg lycopene

### Vitamin C, Mixed Carotenoids, and Mixed Tocopherols—

These are powerful, natural antioxidants with a wide spectrum of action. Carotenoids such as beta-carotene are precursors to vitamin A, a pigment essential for good vision, and carotenoids can also act as antioxidants. People consuming diets rich in carotenoids from natural foods, such as fruits and vegetables, are generally healthier than people who don't.\*

**Olive Extract**—Long recognized for their health-promoting benefits, polyphenols in olive extract exert a free radical scavenging activity that helps improve skin health by promoting healthy, younger-looking skin.\*

**Grape Seed Extract**—This contains antioxidants that help your blood vessels stay healthy. It also helps promote healthy blood platelet activity. As a result, it helps maintain a healthy heart and cardiovascular system.\*

**Lycopene**—This pigment gives vegetables and fruits—such as tomatoes, pink grapefruit, and watermelon—their red color. Lycopene has strong antioxidant capabilities.\*

*CellWise* also has a proprietary blend of alpha lipoic acid, L-glutamine, SAM-e, and extracts of natural green tea, cocoa, grape skin, blueberry, rosemary, and clove for even more antioxidant power.\*
